PROFESSIONAL SUMMARY

Designing the future with AI. An AI engineer transitioning from diplomatic and overseas affairs to AI development. Identifying strategic problems and building precise, insightful solutions with cutting-edge AI modeling. Expert in bridging complex communication and technical innovation.

EXPERIENCE

Foreign Affairs & Administrator *Secretary for National Assembly* 2019.07 – 2025.06

Led diplomacy and macro overseas affairs at the Republic of Korea National Assembly and major law firms (Choongjeong, Lee & Ko).

Lee & Ko (Apr. 2022 – Jun. 2025)

- Established and managed the Korea-Middle East Sustainable Development forum.
- Administered high-level meetings and overseas trips with government and private entities.
- Maintained relations with parliamentary staff to advocate for legislative adjustments and mitigate regulatory risks.

HMP Law (Jul. 2020 – Apr. 2022)

- Managed relations with foreign dignitaries to assist cooperation with Korean companies.
- Served as a lead Korean-English interpreter during high-stakes meetings.

National Assembly of Korea (Jul. 2019 – May. 2020)

- Researched foreign legislations for domestic implementation and policy drafting.
- Requested and analyzed deep-dive data from overseen organizations for hearings.
- Organized foreign VIP relations and managed high-volume global correspondence.

Workforce Management & Apple Advisor *Concentrix Korea* 2018.04 – 2019.02

- Managed call center attendants' schedules according to global office and client standards.
- Identified system inefficiencies and implemented process optimization for performance.
- Assisted in-call customers as a Tier 4 Senior Advisor (Highest Level) for Apple products.

EDUCATION

Miami University, USA (OH)
B.A. in International Studies (Specialization: Economic Development)

IBM x RedHat AI Transformation
AX Academy (Certificate)

PROJECTS

IAMX6 — Naver Blog Automation Desktop App Solo · Private Repo

Electron · Puppeteer-core · Node.js · AI/LLM · electron-builder

Shipped as an Electron desktop app (not web). Puppeteer drives a real Naver browser session, an AI model writes context-aware comments, distributed as a single Windows portable .exe.

KOKKOK Garden — K-Beauty Multi-region E-commerce Individual Project

Next.js 16 · TypeScript · Supabase · GPT-4o mini · Vercel

Full stack (frontend → backend → DB → chatbot) built via vibe coding. Auto-splits KR/GL stores; GPT-4o mini translates products into 5 languages. (https://kokv2.vercel.app)

AIIM — AI Influencer Matching Individual Project

Next.js 16 · Playwright · LLM SDK · Reddit API (snoowrap)

Playwright scraping plus Reddit's public API collect influencer signal; an LLM scores brand-fit with rationale to drive outreach decisions.

Vaccine Daily (AI News Pipeline) Team (3 members)

Implemented an efficient Multi-Agent system for personalized news reports by optimizing token usage and integrating various ML packages beyond a single LLM.

EPL Match Prediction AI
Individual Project

Developed TensorFlow ensemble with RL-based confidence optimization and Monte Carlo simulation engine.

Crazy Arcade Web Replica
Team (4 members)

React · FastAPI · WebSocket · MySQL

Designed a WebSocket-driven state-sync system across lobby → waiting room → game room, handling real-time concurrency problems that plain HTTP cannot express.

Goblin Shopping Mall (E-Commerce SPA)
Team (4 members)

React · JavaScript · CSS · Vercel

Integrated an external product API, built 18+ category filters, search, and cart — ran the full pipeline from idea to Vercel deployment as a team.

My Diary (Emotion Log App)
Individual — Educational

React · Context API · localStorage

Designed global state from scratch with Context API + useReducer and shipped persistence with only localStorage, proving a useful app can ship without a backend.

SKILLS

Frontend	React, Next.js, JavaScript, HTML/CSS, Framer Motion
Backend / AI	Python, FastAPI, TensorFlow, GraphRAG, Agentic AI, XGBoost, LightGBM
Database	PostgreSQL, MySQL, ChromaDB, SQLAlchemy
Infra / DevOps	Docker Compose, AWS EC2, Git, Vercel, WebSocket
