SUMMARY

Six years bridging Korea and the Middle East at the National Assembly and the country's two top-tier law firms. Now using self-taught AI to ship automation pipelines and predictive data systems, working to minimise hallucinations and deliver the best results. Always curious about new technologies and platforms, with one goal: bringing the future closer, faster.

CORE COMPETENCIES

- **Production AI operator** — architecting and running seven AI projects end-to-end. Picks up new tooling fast and ships the next system with it.
- **Cross-border deal sourcing** — six years at Lee & Ko, HMP Law, and the National Assembly bridging Korean institutions and Middle East sovereign capital.

EXPERIENCE

Lee & Ko (법무법인 광장)

Apr 2022 — Jun 2025 · Seoul

Foreign Affairs & Cross-Border Deal Coordinator · Secretary-General, Korea–Middle East Sustainable Development Forum

- Closed the **2023 KOFIA × UAE / Singapore SWF joint-investment LOI** — top-10 Korean financial institutions × ADIA, Mubadala, PIF, QIA, GIC, Temasek. Bilateral pipeline pre-built through the Korea–Middle East Forum.
- Led the **2024 SNU Dental Hospital × Mubadala Health MOU** end-to-end: agenda alignment, term-sheet drafts, ministerial-level sign-off. Residency & faculty-exchange framework remains operational.
- Tracked the investment agendas of the six largest sovereign wealth funds (ADIA, Mubadala, PIF, QIA, GIC, Temasek) continuously, aligning each fund's asset allocation with live Korean deal flow.

HMP Law (법무법인 총정)

Jul 2020 — Apr 2022 · Seoul

Foreign Affairs & Cross-Border Deal Coordinator

- Delivered the **direct connection between the Oman Ministry of Defense and Hyundai Rotem** for a decommissioned-tank acquisition. Advanced to DAPA approval at last confirmed state.
- Sourced Korean EPC partners for an **LNG pipeline construction project adjacent to an existing oil pipeline in Iraq**, working through regional security risk and contractor risk-profile mismatches.
- Mandate lead on a **Nigerian steel-business acquisition**, sourcing fit-profile Korean acquirers.

National Assembly of Korea (대한민국 국회)

Jul 2019 — May 2020 · Seoul

Grade-7 Secretary · Foreign-Affairs Liaison — Office of Rep. Kim Jung-hoon

- Sole-coverage of the **National Policy Committee (FSC · FSS · KFTC) audit sessions** — learned the financial-regulation frame underneath every cross-border-capital conversation in real time.
- Led discussions on an **MOU between the National Museum of Korea and the Louvre Abu Dhabi**, securing principal working-level contacts to advance the MOU into subsequent stages.
- Built the back-channel UAE network (including **Mubadala group**) through the biweekly informal expat gathering at the UAE Ambassador's residence — a network that later enabled the Korea–UAE projects at Lee & Ko.

Concentrix Korea (Apple ecosystem)

Apr 2018 — Feb 2019 · Seoul

Workforce Manager & Apple Tier-4 Senior Advisor — client: Apple

- Ran the Apple APAC English-language tech-support call centre (30+ advisors). Built the 24-hour rotation, demand forecasting, and CSAT / AHT-based SLA framework to Apple HQ standards. As **Tier-4 Senior Advisor** (highest level), handled the most complex English-language Apple technical escalations directly.
